ENGINEERING SPECIFICATION: ZURN Z100F-85

FLOFORCE™ High efficient flow performing overflow roof drain engineered to evacuate water off of roof structure by incorporating a smooth funnelshaped interior surface, providing a seamless transition to outlet connection, and eliminating internal obstructions. Complete with Dura-Coated cast iron body with gravel guard, stainless steel perforated extension, secondary membrane clamping collar and low silhouette Poly-Dome. Gravel guard provided to prevent debris from entering the drain while allowing water to immediately pass through at zero head level. Poly-dome designed to maximize effective open area and promote efficient flow. (Refer to Z100F specification sheet for flow curves.)
