ENGINEERING SPECIFICATION: ZURN Z1173-TD-77 Acid Resistant Coated interior and exterior fabricated steel grease interceptor, rated at $\qquad$ GPM and $\qquad$ Lbs. grease capacity, with internal air relief by-pass, bronze cleanout plug and visible double wall trap seal with removable combination pressure equalizing/flow diffusing baffle and sediment tray. Gasketed non-skid secured cover with draw off port having bronze plug, grease accumulating cone, NPT to hose adaptor, 2' [610] flexible hose, hose clamp, and an in line closure valve. Complete with Acid Resistant Coated interior and exterior fabricated steel recessing receiver with support brackets and gasketed non-skid cover with lift handles and Z1108 Flow Control Fitting. Regularly furnished inlet and outlet in high position. Note: Location of outlet from bottom of interceptor cannot be changed.

## PREFIXES

Z Acid Resistant Coated Fabricated Steel*

## SUFFIXES

$\qquad$ -L Angle type (Z-1108-L) flow control device with plunger (no additional charge).
