## ENGINEERING SPECIFICATION: ZURN Z1186-ST-78

Acid Resistant Coated interior and exterior fabricated steel oil interceptor, with bronze cleanout plug, visible double wall trap seal, removable combination pressure equalizing/flow diffusing baffle and sediment bucket, adjustable oil draw-off gate plate, vent connections and left-hand integral storage tank. Complete with double-wall containment with anchor flange (1 3/4 [44] down from top and 2 [51] wide), secured gasketed non-skid cover, flow control fitting, and anode rod. Fiberglass sensor box contains a float oil level sensor. Fiberglass display box comtains one green power light, one red oil light, audible alarm and junction box. Regularly furnished with inlet and outlet in high position. Note: location of outlet from bottom of interceptor cannot be changed.

## **OPTIONS** (Check/specify appropriate options)

PREFIXES Z SUFFIXES HD STR	Acid Resistant Coated Fabricated Steel* Heavy duty traffic cover rated at 10,000 lbs. maximum safe live load Storage tank on right hand side when facing the inlet.	<ul> <li>Note:</li> <li>1. Double wall construction will extend the overall length and width of the unit by 3 [76] per side and increase the overall depth by 3 [76].</li> <li>2. Power supply 120V GFCI.</li> </ul>							
	Inlet and outlet sizes shown indicate standard operating sizes and flow control settings. Size #300 and #400 will have 3 [76] connections reduced to 2 [51] as standard. Size #700 and #800 will have 4 [100] connections reduced to 3 [76]as standard.
