### MONITORING SYSTEM

### SAMPLING SUMP

#### ENGINEERING SPECIFICATION: Z9A-pHMS-R

Monitoring System is manufactured by Zurn Industries. The system is complete with pH probe assembly consisting of an immersion type electrode and mounting brackets constructed of Polypropylene, Nema #12, epoxy coated steel pH control panel housing with a pH strip chart recorder designed for 30 days of continuous use and an Audible/Visual alarm with push button silencing relax. Unit includes 12 feet of cable for hook up from junction box relay to pH control panel. Contractor shall install equipment and components, in accordance with manufacturer's recommendations. [The HDPE 5 gallon sampling tank with bolted gasketed cover is sold separately](#)
