ENGINEERING SPECIFICATION: ZURN Z1172-UN-83

Large capacity Acid Resistant Coated interior and exterior fabricated steel grease interceptor with side sensor enclosure, extension, internal air relief by-pass, bronze cleanout plug and visible double wall trap seal with removable pressure equalizing/flow diffusing baffle. Gasketed non-skid heavy-duty secured traffic cover rated at 10,000 lbs [4536 kg] maximum load with removable lift handles, and interceptor identification plate on underside, complete with flow control fitting. Includes encased fiberglass sensor box containing an electronic grease level sensor (specify right or left side)*, a fiberglass display box with one green power light, one red grease level lights, audio alarm and junction box. Regularly furnished with inlet and outlet in high position.

OPTIONS (Check/specify appropriate options)

PREFIXES

- _____ Z Acid Resistant Coated Fabricated Steel*
- _____ ZS All Type 304 Fabricated Stainless Steel

SUFFIXES

- _____ -L Angle type (Z1108-L) flow control device.

Note:

- * 1. Sensor box is mounted on the left or right hand side of the unit when facing inlet (must be specified).
 - 2. Power supply 120V GFCI.
 - 3. User must drill holes for sensor box to junction box line and seal per local code requirements
 - 4. Location of inlet from bottom of interceptor cannot be changed.
- * Regularly furnished unless otherwise specified.
